

What's New

The Conrad Chair Debuts

A versatile chair that is "at home" in many design schemes.

As the summer season approaches it is the best time to think of our "all weather wicker" collection, **The Westfield**. This group has many options from modular units to chairs, cubes, screens, and chaise lounges. The **Conrad chair** (*right*) is a chair

that can move in many directions. It is available in all the **Miles Talbott** finishes in both leather or any of the **Joe Ruggiero/Sunbrella** fabrics and decorative cording. Pictured (*right*) is the new driftwood finish. The **Conrad** with the Westfield. (*above*)

PRESENTATIONS IN CALIFORNIA & ARIZONA SHOW NEW SUNBRELLA FABRICS!

At **Joe Ruggiero/Sunbrella/Miles Talbott Lunch & Learns** in Beverly Hills, Laguna Beach & Scottsdale, new furnishings from his collections were presented to designers eager to hear the news. "I have found designers are amazed at the wide range of **Sunbrella** fabrics that are now available. They find the soft hand of the

fabric and the new textures amazing. One of the most effective ways to demonstrate these new fabric developments is on a personal basis, conducting the *Lunch & Learn* events throughout the country."
