## Lunch & New Fabrics

*Los Angeles designers have lunch and see the new JR collections.*

“What a pleasure to meet this great group of *Los Angeles/Beverly Hills designers*. As part of the **Joe Ruggiero/Sunbrella Luncheon Series**, we hosted a lunch at the *Peninsula Hotel in Beverly Hills*. This is a great way to present our new fabric collections to designers

throughout the United States. In September, we will be visiting our design friends in **Canada**. *Toronto, September 11 at Cocoon and September 12 in Ottawa at the Luxe store*. A benefit Fashion Show will also be included in my visit.” Stated **Ruggiero**

### Sunbrella Design Team

It all makes such sense to select fabrics in the sunshine, especially when you are looking at **Sunbrella** fabrics. Greg Voorhis (left) and Emily Cosgrove (middle) from the Sunbrella design department have been working hard this season to interpret my designs and as always, they perform “*miracles*.” It amazes me how this “can do” team can always make it happen. Thanks.

### NEW COLORS FOR TEXTILLERY THROWS

The **Joe Ruggiero/Sunbrella/Textillery Collection** continues to get rave reviews whenever it is presented to the design community. The collection of **Joe Ruggiero** throws are easy to clean and can be thrown into the washer and dryer and yet the incredible **soft hand** amazes anyone who feels these throws.

During the **High Point Furniture Market** this past **April 2013** a new color palette of soft pastels was introduced and now the color choices are quite extensive.

“Thanks to the great cooperation and support we receive from John and Judith Rose of **Textillery Weavers**.”
