## JR/Sunbrella Geometrics

*A serene setting for the bedroom with soft lilac/gray colors.*

The lead pattern this market for Joe Ruggiero was most certainly, **Savvy** which was offered in three colors, Coffee, Sunset and Dusk (*pictured in the bedroom above*) which has a Lilac/ Gray hue. This geometric pattern mixed so well with the ikat pattern **Pistrano** (on

*the white frame Louis chair, right*) inspired by **Native American Designs**. Other patterns in the room are **Willis** in Gravel and Putty and a new color of **Meridian**, Pebble. The mix of these patterns create a bedroom that is both serene and exciting.
