Sunbrella Fabrics Make a Room “Worry-Free” With Style!

For sixteen years now Furniture and Fabric Designer, Joe Ruggiero has been designing for Sunbrella Fabrics. ***“I have always believed that people and pets should live comfortably in rooms without the hassle or concern for damage to fabrics or surfaces. I have also***

encouraged my children and grand children to enjoy the upholstery in the room and not feel that any room is off limits!” states Joe. ***“When I first began designing for Sunbrella, many of my customers asked if they could use these performance***

fabrics indoors. Today we have developed fabrics that look and feel like fine silks, chenilles, cotton, linen and soft worsted wools. Many of our new textures today, look like they have been hand woven or hand loomed.”
